The CHARM of a  
POTTING SHED

Tastes of the Season: *Cooking with Herbs*

*Above: Enjoy spring blooms year-round with exquisite botanical creations. Anne Blackwell Thompson gathers flora from the Virginia countryside and preserves them with her meticulous artistic touch. These one-of-a-kind compositions beautifully combine classic style with original flair. Right: Mark your most special books with lovely little bookplates in a pink floral motif from Typothecary Letterpress.*

*Left: Throw on an exuberant floral-print merino wool cardigan from Garnet Hill that has the look of a watercolor painting. The garment's bold brushstrokes in vibrant hues of fuchsia and green will enliven your wardrobe and keep the early spring chill at bay. A peony-embellished pillow from Chelsea Textiles is an ideal way to introduce a bit of subtle color to neutral furnishings.*
